**Subject:** Re: call from Record

Hi Ray. I seem to always plan my trips to land on press events. Inadvertently.

The meeting should go well. Tony has been a great asset in this outreach effort. Have a great vacation.

**Subject:** call from Record

David P. O'Neill

Hi David we got a call from Jim O'Neill at the Record. A few simple questions about 10.9. and the meeting June 5 (schedule, amount of material removed, why only the top 2 feet, etc.) He's running a brief article prior to the meeting. Just wanted you to know. Any questions give me a call ok.

By the way I am on vacation next week (planned it around a May meeting!) so will miss June 5 but Tony will be there with my partner Kelly Henry as well as many CPG folks. Talk to you soon.

Ray

**Subject:** Site signage; Passaic Lyndhurst

Tony, as I indicated in our last conference call I have attached the sign that was posted on the fence surrounding the Diamond Alkali site for the sediment removal project. This is what we did for that project. I copied Stephanie on this email for her to also weigh in on whether this is the type of sign for Lyndhurst or if something else is more appropriate.
